Essential Function Questionnaire

Building on the results documented in Worksheet 12, the objective of this worksheet is to further evaluate essential agency functions and develop measures to minimize. If, at any point, the function is determined NOT to be essential, it is not necessary to complete the questionnaire for that function.

Area of Responsibility: _____

Function: _____

Services this function provides:

Other agency functions and other agencies that depend upon this function:

(Use reverse side if additional space is needed)

1. The loss of this function would have the following effect on the agency:

- Catastrophic effect on the agency or some divisions
- Catastrophic effect on one division
- Moderate effect on the agency
- Moderate effect on some divisions
- Minor effect on the agency or some divisions

2. How long can this agency function continue without its usual operation of information systems and telecommunications support? Assume that loss of support occurs during your busiest, or peak, period. Check one only.

Check	Period of Time	Check	Period of Time	Check	Period of Time
	Hours		Up to 3 days		Up to 3 weeks
	Up to 1 day		Up to 1 week		Up to 4 weeks

4. Have you developed/established any backup procedures (manual or otherwise) to be employed to continue agency functions in the event that the associated applications are not available? Consider how much data you can afford to lose. Consider data and/or applications on hard drives, CD-ROMs, floppy drives, Zip drives, as well as paper data.

If yes, how often have those procedures been tested?

- Always: _____
- During the following period of the year: _____
- During the following time of the month: _____
- During the following time of the week: _____
