

## CHAPTER 10

## OTHER INFORMATION

TABLE 10.1 Parking in CBD areas of U.S. cities (*availability, price, and utilization*)

Site	Off-Street Spaces Per Employee	Average Monthly Parking Price (\$)	Percent Commute Trips By SOV (%)
Philadelphia	0.17	165	14
Baltimore	0.22	95	64
Portland	0.39	105	52
Honolulu	0.40	104	59
Minneapolis	0.44	80	68
Denver	0.52	75	54
Atlanta	0.53	50	49
Madison	0.58	50	61
San Diego	0.58	130	88
Los Angeles	0.68	N/A	40
Phoenix	0.73	N/A	70
Charlotte	0.76	N/A	70

**TABLE 10.2** Cities with highest percentage of workers using public transportation, 1990

City	Percent Using Public Transportation
New York, NY	53.4
Hoboken, NJ	51.0
Jersey City, NJ	36.7
Washington DC	36.6
San Francisco, CA	33.5
Boston, MA	31.5
Chicago, IL	29.7
Philadelphia, PA	28.7
Atlantic City, NJ	26.2
Arlington, VA	25.4
Newark, NJ	24.6
Cambridge, MA	23.5
Pittsburgh, PA	22.2
Baltimore, MD	22.0
Evanston, IL	20.9
Atlanta, GA	20.0
White Plains, NY	19.1
Camden, NJ	18.1
Oakland, CA	17.9
Hartford, CT	17.1
New Orleans, LA	16.9
Idaho Falls, ID	16.5
Minneapolis, MN	16.0
Seattle, WA	15.9
Berkeley, CA	15.2
Albany, NY	15.1

**TABLE 10.3** Commuting information: Southern California (*summary of measures across surveys*)

Measure	1991	1992	1993	1994	1996	1998
Percentage of Solo Drivers (including motorcyclists)	79.0%	77.0%	79.0%	81.0%	76.0%	77.0%
Mean Distance to Work (miles)	16.6	16.6	14.8	16.5	16.5	16.1
Median Distance to Work (miles)	10.0	10.0	10.0	10.0	12.0	11.0
Mean Time to Work (minutes)	33	36	33	31	33	32
Median Time to Work (minutes)	27	30	30	25	30	25
Mean Time to Home (minutes)	38	40	36	36	37	37
Median Time to Home (minutes)	30	30	30	30	30	30
Percentage of Commuters Receiving Free Parking	93%	94%	93%	92%	93%	94%

**TABLE 10.4 Commuting information: Southern California (average satisfaction rating)**

Year	Average Score
1990	5.8
1991	5.8
1992	6.0
1993	6.4
1994	6.6
1996	6.6
1998	6.7

Source: Southern California Association of Governments, Southern California Rideshare "State of the Commute Report" 1998.

Scale: 1 (Least Satisfaction); 9 (Most Satisfaction)

**TABLE 10.5 Commuting information: Southern California (commuter satisfaction by travel mode)**

Primary Travel Mode	Average Satisfaction Rating	Number Of Cases
Rail	8.0	17
Bicycle	7.7	14
Walk or Jog	7.6	47
Vanpool	7.1	34
Bus	6.9	103
Carpool	6.8	419
Drive Alone	6.7	2253
Motorcycle	5.4	28

Source: Southern California Association of Governments, Southern California Rideshare "State of the Commute Report" 1998.

Scale: 1 (Low Satisfaction); 9 (High Satisfaction)

**TABLE 10.6 Commuting information: Southern California (commuter satisfaction by trip distance)**

Distance	Average Satisfaction Rating	Number Of Cases
Less than 5 miles	7.6	572
5 to 9 miles	7.2	580
10 to 14 miles	6.8	495
15 to 19 miles	6.3	294
20 to 24 miles	6.4	288
25 to 29 miles	6.6	169
30 to 34 miles	5.6	115
35 to 44 miles	5.6	223
45 miles and over	5.5	160

Source: Southern California Association of Governments, Southern California Rideshare "State of the Commute Report" 1998.

Scale: 1 (Low Satisfaction); 9 (High Satisfaction)

The **Transportation Research Board** is a unit of the National Research Council, which serves the National Academy of Sciences and the National Academy of Engineering. The Board's mission is to promote innovation and progress in transportation by stimulating and conducting research, facilitating the dissemination of information, and encouraging the implementation of research results. The Board's varied activities annually draw on approximately 4,000 engineers, scientists, and other transportation researchers and practitioners from the public and private sectors and academia, all of whom contribute their expertise in the public interest. The program is supported by state transportation departments, federal agencies including the component administrations of the U.S. Department of Transportation, and other organizations and individuals interested in the development of transportation.

The National Academy of Sciences is a private, nonprofit, self-perpetuating society of distinguished scholars engaged in scientific and engineering research, dedicated to the furtherance of science and technology and to their use for the general welfare. Upon the authority of the charter granted to it by the Congress in 1863, the Academy has a mandate that requires it to advise the federal government on scientific and technical matters. Dr. Bruce M. Alberts is president of the National Academy of Sciences.

The National Academy of Engineering was established in 1964, under the charter of the National Academy of Sciences, as a parallel organization of outstanding engineers. It is autonomous in its administration and in the selection of its members, sharing with the National Academy of Sciences the responsibility for advising the federal government. The National Academy of Engineering also sponsors engineering programs aimed at meeting national needs, encourages education and research, and recognizes the superior achievements of engineers. Dr. William A. Wulf is president of the National Academy of Engineering.

The Institute of Medicine was established in 1970 by the National Academy of Sciences to secure the services of eminent members of appropriate professions in the examination of policy matters pertaining to the health of the public. The Institute acts under the responsibility given to the National Academy of Sciences by its congressional charter to be an adviser to the federal government and, upon its own initiative, to identify issues of medical care, research, and education. Dr. Kenneth I. Shine is president of the Institute of Medicine.

The National Research Council was organized by the National Academy of Sciences in 1916 to associate the broad community of science and technology with the Academy's purpose of furthering knowledge and advising the federal government. Functioning in accordance with general policies determined by the Academy, the Council has become the principal operating agency of both the National Academy of Sciences and the National Academy of Engineering in providing services to the government, the public, and the scientific and engineering communities. The Council is administered jointly by both the Academies and the Institute of Medicine. Dr. Bruce M. Alberts and Dr. William A. Wulf are chairman and vice chairman, respectively, of the National Research Council.

Abbreviations used without definitions in TRB publications:

AASHO	American Association of State Highway Officials
AASHTO	American Association of State Highway and Transportation Officials
ASCE	American Society of Civil Engineers
ASME	American Society of Mechanical Engineers
ASTM	American Society for Testing and Materials
FAA	Federal Aviation Administration
FHWA	Federal Highway Administration
FRA	Federal Railroad Administration
FTA	Federal Transit Administration
IEEE	Institute of Electrical and Electronics Engineers
ITE	Institute of Transportation Engineers
NCHRP	National Cooperative Highway Research Program
NCTRP	National Cooperative Transit Research and Development Program
NHTSA	National Highway Traffic Safety Administration
SAE	Society of Automotive Engineers
TCRP	Transit Cooperative Research Program
TRB	Transportation Research Board
U.S.DOT	United States Department of Transportation
